Company Profile

Who We Are

Your Trusted Partner for Medical Manufacturing, Sourcing, and Export from China

FOSHAN SAFE CAREMED CO., LTD is a China-based medical manufacturing, sourcing, and export company serving healthcare importers and distributors across the Middle East and Africa. With ten years of experience and direct contracts with manufacturers across a wide range of medical categories, we help our partners source quality products, produce under their own brand or ours, and ship reliably from China. Our focus is dependable supply, transparent documentation, and long-term partnership.

Who We Are

We work with manufacturers throughout China and coordinate shipments through all major Chinese ports. Over ten years, we have built direct contracts across many categories of medical consumables and devices, secured exclusive agency rights in the Middle East with several manufacturers, and provide OEM and private-label production under our clients' brands and our own. To stay close to our partners, we operate facility centers in Hong Kong, Qatar, Saudi Arabia, Egypt, and Malaysia.

What We Supply

Our range covers medical consumables and disposables, medical devices and equipment, hospital and surgical supplies, laboratory consumables, PPE, wound care and dressing products, dental consumables, and raw materials for medical production. Through OEM and private-label manufacturing, products can be produced and packaged under the SAFE CAREMED brand or under our clients' own brands, helping distributors build and grow their product lines.

Company Profile

Proven Track Record

Trusted by leading healthcare institutions and buyers across the region.

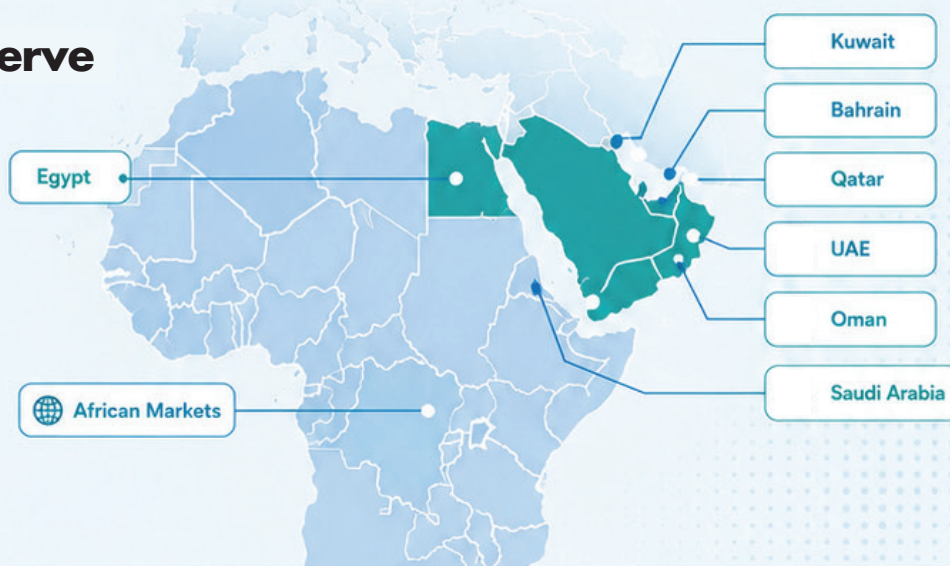

SAFE CAREMED has worked with leading healthcare institutions in the region, including the Egyptian Ministry of Health, the Qatari Ministry of Health, and Hamad International Hospital in Qatar, with active projects currently in place. This experience reflects our ability to meet the standards, documentation, and trust that government and institutional buyers require.

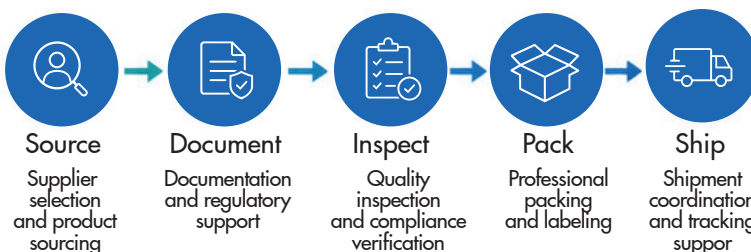

Markets We Serve

We serve importers, distributors, and healthcare supply companies across the Middle East, the Gulf, Egypt, and Africa — including Saudi Arabia, the UAE, Qatar, Kuwait, Oman, Bahrain, and Egypt, alongside a range of African markets — supporting hospitals, clinics, laboratories, and procurement channels through their distribution networks.

End-to-End Export Support

We manage the full process — from manufacturer coordination and product sourcing through documentation, inspection support, packing, and shipment follow-up. With experience across all major Chinese ports, we keep each order organized and transparent and coordinate communication between buyer, manufacturer, and logistics from China to the destination. Products can be supplied with relevant certification and documentation, such as CE, ISO 13485, FDA registration, Chinese FSC, European FSC, and test reports, when applicable to the product and market.

Company Profile

Why Choose SAFE CAREMED

Trust, Quality, and Long-Term Value for Your Business.

Ten Years of Experience

A decade in medical manufacturing, sourcing, and export.

Direct Factory Partnerships

Established contracts with manufacturers across many medical categories.

Exclusive Middle East Agency

Sole agent for several manufacturers, with products and pricing not available elsewhere in the region.

OEM & Private Label

Production under your brand or ours.

Regional Facility Centers

Local presence in Hong Kong, Qatar, Saudi Arabia, Egypt, and Malaysia.

Proven Institutional Track Record

Trusted by health ministries and a major hospital in the region.

Our Vision & Mission

To be a trusted, long-term medical manufacturing and export partner across the Middle East and Africa — delivering dependable products, competitive B2B terms, transparent documentation, and well-organized export support from China.

Let's Build a Long-Term Partnership

Whether you are an importer, distributor, or procurement company, SAFE CAREMED is ready to support your sourcing, manufacturing, and export needs from China. Contact us to discuss your requirements, request documentation, and explore long-term cooperation.

Non Woven PRODUCTS

Surgical Face Mask

3-ply disposable mask with a melt-blown filter layer and soft ear loops for daily medical use

Tie-On Mask

Soft non-woven tie-on mask for secure fit and extended protection.

Bouffant Cap

Lightweight non-woven head cover with elastic edge for complete hair containment.

Surgical Cap

Soft non-woven cap for surgical use, designed for secure fit and hair coverage.

Beard Cover

Disposable non-woven beard cover with elastic edge for hygiene and contamination control.

Shoe Cover

Disposable non-woven shoe cover with elastic opening to protect footwear from contamination.

Isolation Gown

Single-use non-woven gown for basic patient care and isolation protection.

Surgical Gown

Sterile non-woven surgical gown designed for operating room use and fluid resistance.

Patient Gown

Comfortable non-woven patient gown designed for clinical use and patient comfort.

Non-Woven Disposable Apron

Lightweight disposable apron providing barrier protection for general care and hygiene.

Protective Coverall

Full-body protective coverall with hood for high-risk environments and infection control.

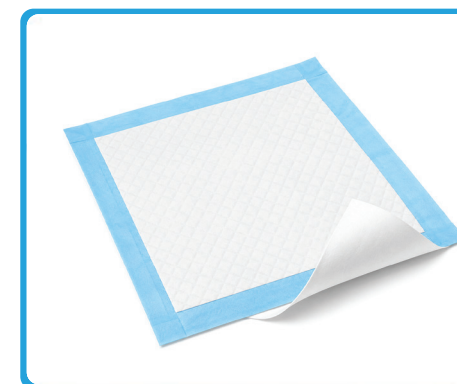

Disposable Dental Bib

Disposable waterproof dental bib used during dental treatment and patient care.

Disposable Bed Sheet

Single-use non-woven bed sheet for hospitals, clinics, and examination rooms.

Disposable Underpad

Multi-layer absorbent underpad for patient care and surface protection.

Sterilization Wrap (SMS/SMMS)

Medical non-woven sterilization wrap for packaging surgical instruments before sterilization.

Wound Care & DRESSINGS

Alginate Dressing

Highly absorbent alginate dressing that forms a soft gel on contact with wound exudate to support moist wound healing.

Silicone Foam Dressing

Soft, atraumatic silicone foam dressing for moderate to highly exuding wounds. Provides cushioning and pain-free removal.

Silver Alginate Dressing

Alginate dressing with silver for enhanced antimicrobial protection. Manages wound exudate and supports healing.

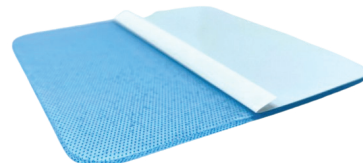

Foam Dressing

Soft polyurethane foam dressing for moderate exudate wounds. Absorbs and cushions while maintaining a moist environment.

Hydrocolloid Dressing

Adhesive hydrocolloid dressing that forms a gel to maintain a moist healing environment and protect from external contaminants.

Hydrogel Dressing

Hydrating hydrogel dressing that cools, moisturizes, and supports autolytic debridement for dry or necrotic wounds.

Burn Gel Dressing

Cooling hydrogel dressing that soothes pain, relieves heat, and protects minor burns from infection.

Honey Calcium Alginate Dressing

Alginate dressing infused with honey and calcium to manage exudate and support faster wound healing.

Transparent Film Dressing

Thin, breathable polyurethane film that protects wounds from bacteria and water while allowing visibility.

Collagen Wound Dressing

Collagen dressing that supports tissue regeneration and helps maintain a moist healing environment.

IV Dressing

Transparent dressing with slit and secure adhesion for fixation and protection of IV catheter sites.

Povidone-Iodine Gauze Dressing

Iodine-impregnated gauze for broad-spectrum antimicrobial action to help prevent wound infection.

Silver Calcium Dressing

Calcium alginate dressing with silver for superior absorption and antimicrobial wound protection.

Activated Charcoal Dressing

Activated charcoal dressing that adsorbs odor, exudate, and impurities to help reduce odor and promote a clean wound bed.

Antimicrobial Hydro-Alginate Dressing

Advanced hydro-alginate dressing with antimicrobial agents to manage exudate and protect against infection.

Gauze Swabs & BANDAGES

Tubular Bandage

Seamless cotton tubular bandage for retention dressing and light support on limbs and joints.

Elastic Adhesive Bandage

Elastic adhesive bandage that provides firm support and compression for sprains and soft tissue injuries.

Crepe Bandage

Soft crepe bandage for light compression, support, and dressing retention.

Conforming Bandage

Soft conforming bandage that adapts easily to body contours for dressing retention.

Cohesive Bandage (Self-Adherent)

Self-adherent cohesive bandage that sticks to itself without clips or pins.

Plaster of Paris (POP) Bandage

Gypsum-coated bandage used for orthopedic immobilization and casting.

Gauze Roll (Cotton)

Bleached cotton gauze roll for wound dressing, cleaning, and general medical use.

Abdominal Pad (ABD Pad)

Highly absorbent ABD pad for heavy-drainage wounds and post-surgical care.

Cotton Balls Cotton Wool

Soft absorbent cotton balls and cotton wool for cleansing, padding, and general medical use.

Non-Woven Swabs Sterile

Sterile non-woven swabs for wound cleaning, dressing, and general clinical use.

Non-Woven Swabs Non-Sterile

Non-sterile non-woven swabs for general cleaning and dressing applications.

Cotton Gauze Swabs Sterile

Sterile cotton gauze swabs with high absorbency for wound care and procedures.

X-Ray Detectable Gauze Swabs

Sterile gauze swabs with X-ray detectable thread for surgical use and patient safety.

Laparotomy Sponges

High-absorbency surgical sponges for major procedures and operating room use.

Paraffin Gauze Dressing (Tulle)

Non-adherent paraffin gauze dressing for burns, donor sites, and superficial wounds.

SURGICAL PACKS & DRAPES

Hip Pack

Sterile orthopedic pack for hip surgery with gowns, bandage, stockinette, adhesive drapes, split-U drape, and covers. 4 sets/case.

Knee Arthroscopy Pack

Sterile pack for knee arthroscopy with standard and reinforced gowns, stockinette, split sheet, and arthroscopy drape. 4 sets/case.

Ophthalmology Pack

Sterile eye surgery pack with small accessories, surgical gown, ophthalmology drape, and back table cover. 8 sets/case.

Universal Surgical Pack

Sterile single-use pack for routine surgery. Available in Basic, Standard, Reinforced and Split builds. 30-6 sets/case.

Laparotomy Pack

Sterile single-use pack for open abdominal surgery with drapes, towels, Mayo stand cover, and back table cover. 14 sets/case.

Laparoscopy Pack

Sterile single-use pack for laparoscopic abdominal surgery with adhesive drape, laparoscopy drape with pouch, and accessories. 9 sets/case.

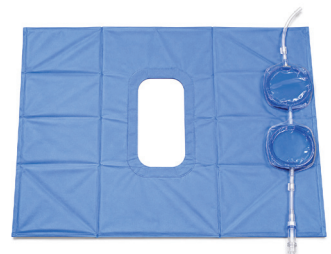

Cardiovascular Pack

Sterile pack for cardiovascular and catheterization procedures with gowns, adhesive drapes, equipment covers, and CV incise drape. 4 sets/case.

Urology Pack

Sterile single-use pack for urology procedures with drapes, collection pouch, instrument cover, and back table cover. 6 sets/case.

Laparotomy Drape

Sterile fenestrated drape for open abdominal surgery with absorbent reinforcement. Sizes up to 307x198/250 cm. 30-24 pcs/case.

Delivery Pack

Sterile vaginal delivery pack with gown, cord clamp, bulb syringe, maternity items, drapes, and basin cover. 6 sets/case.

Cesarean Pack

Sterile cesarean section pack with reinforced gowns, suction components, basins, baby blanket, cesarean drape, and covers. 4 sets/case.

Gynecology Pack

Sterile pack for gynecological procedures with hand towels, gynecology drape, and back table cover. 12 sets/case.

Laparoscopy Drape

Sterile laparoscopy drape with fenestration, armboard cover, and clear instrument pouches. 12-10 pcs/case.

Top, Bottom & Side Drape

Sterile adhesive drapes with reinforcement and tube holders to help define the sterile field. 30-25 pcs/case.

Lithotomy Drape

Sterile lithotomy drape for gynecology and urology procedures with fenestration and fluid collection pouch. 20-10 pcs/case.

Medical GLOVES

Latex Exam Gloves (Powder-Free)

Natural rubber latex examination gloves with excellent elasticity and tactile sensitivity. Powder-free, low-protein. Sizes XS, S, M, L, XL. 100 pcs/box.

Sterile Latex Surgical Gloves

Sterile natural latex surgical gloves with anatomical curved fingers and high tactile sensitivity. Powdered or powder-free. Sizes 8.5–6.0. Paired

Blue Nitrile Exam Gloves

Powder-free nitrile examination gloves with textured fingertips. Latex-free and puncture resistant for medical and laboratory use. Sizes S, M, L, XL. 100 pcs/box.

Sterile Nitrile Surgical Gloves

Powder-free sterile nitrile surgical gloves with anatomical fit and micro-textured surface. Latex-free. Sizes 8.5–6.0. Paired in peel pouch.

Blue Vinyl Exam Gloves

Powder-free blue vinyl examination gloves for low-risk clinical and hygiene use. Sizes S, M, L, XL. 100 pcs/box.

Clear Vinyl Exam Gloves

Powder-free clear PVC examination gloves for general examination and hygiene tasks. Sizes S, M, L, XL. 100 pcs/box.

Latex Surgical Gloves (Powder-Free)

Sterile powder-free latex surgical gloves with polymer or chlorinated inner coating. Reduced donning friction. Sizes 9.0–6.0. Paired in peel pouch.

Nitrile Surgical Gloves (Sterile, Powder-Free)

Premium sterile powder-free nitrile surgical gloves with extended cuff and micro-textured fingertips. Sizes 8.5–6.0. Paired in peel pouch.

Orthopedic Surgical Gloves

Extra-thick sterile latex gloves for orthopedic and trauma surgery. Superior puncture resistance and grip. Sizes 8.5–6.0.

Medical kits & TRAY

Catheterization Kit

Sterile urinary catheterization kit with essential components for safe and hygienic catheter insertion.

Dialysis Care Kit

Sterile single-use kit for dialysis access care, dressing changes, and routine site management.

I.V. Start Kit

Sterile pre-assembled kit containing essential items for peripheral IV insertion and site preparation.

**Central Line
Dressing Change Kit**

Sterile kit designed for central line dressing changes and catheter site maintenance.

Dialysis Care Kit

Sterile single-use kit for dialysis access care, dressing changes, and routine site management.

I.V. Start Kit

Sterile pre-assembled kit containing essential items for peripheral IV insertion and site preparation.

**Central Line
Dressing Change Kit**

Sterile kit designed for central line dressing changes and catheter site maintenance.

First Aid Kit

Compact first aid kit containing essential supplies for wound care, minor injuries, and emergency response.

**Custom Procedure
Tray (CPT)**

Customized sterile procedure tray assembled to meet specific clinical or surgical requirements.

Basic Dressing Kit

Sterile single-use kit containing basic supplies for wound dressing and general clinical care.

**Suture
Application Kit**

Sterile kit with the instruments and consumables required for suture placement procedures.

Suture Removal Kit

Sterile single-use kit for safe and hygienic removal of sutures and minor wound care.

**SYRINGES,
NEEDLES
& IV SUPPLIES**

Syringe (Luer Lock)

Sterile single-use syringe with secure Luer-lock connection for reliable attachment and controlled drug delivery.

Syringe (Luer Slip)

Disposable Luer-slip syringe for standard injection and aspiration procedures.

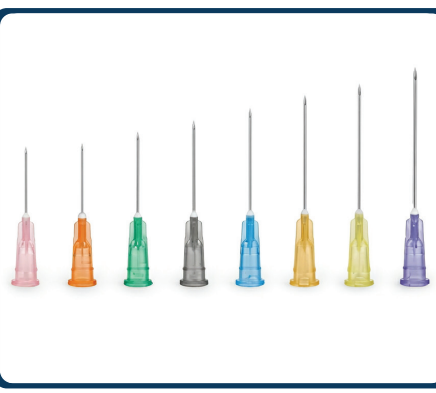

Insulin Syringe

Ultra-fine insulin syringe with permanently attached needle and clearly printed dosage scale.

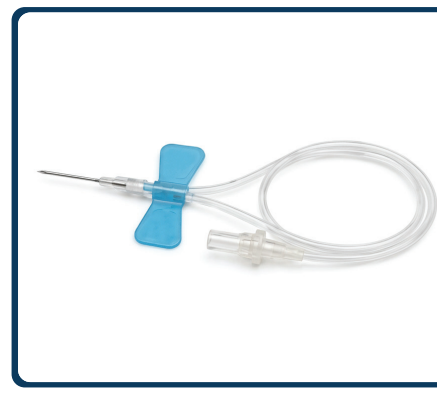

Safety Syringe

Safety-engineered syringe designed to help reduce needlestick injuries and improve user protection.

Hypodermic Needle

Sterile single-use hypodermic needle with color-coded hub for accurate size identification.

**Scalp Vein Set
(Butterfly)**

Winged infusion set with flexible tubing for short-term venous access and controlled blood collection or infusion.

Pediatric Infusion Set (Burette)

Pediatric infusion set with graduated burette chamber for precise volumetric control and accurate administration.

Blood Transfusion Set

Blood transfusion set with filter, roller clamp, and dual-needle assembly for safe and smooth transfusion of blood and blood products.

3-Way Stopcock

3-way stopcock with rotating handle for selective flow control between IV lines; suitable for pressure monitoring and fluid administration.

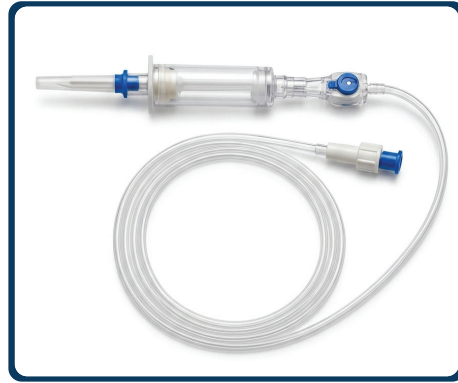

I.V. Catheter (Pen-Like)

IV catheter with pen-like design for quick and smooth insertion; available in multiple sizes for diverse clinical needs.

I.V. Catheter (with Wings & Port)

IV catheter with fixation wings and injection port for secure placement, easy access, and reliable administration.

I.V. Catheter (with Wings & Port)

IV administration set with drip chamber, roller clamp, and Y-injection port for safe and efficient fluid delivery.

Alcohol Prep Pads (%70 Isopropyl)

Non-woven pads saturated with %70 isopropyl alcohol for skin antisepsis prior to injection, venipuncture, or minor procedures.

Povidone-iodine Prep Pads

Non-woven pads impregnated with %10 povidone-iodine for broad-spectrum antiseptic action and skin preparation.

BZK Antiseptic Towelettes

Benzalkonium chloride (BZK) towelettes for effective skin cleansing and antisepsis. Ideal for sensitive skin and general use.

Hand Sanitizer Gel

Alcohol-based hand sanitizer gel with %70 ethanol for effective hand hygiene and germ protection. Quick-drying and non-sticky.

Disinfectant Surface Wipes

Pre-saturated wipes for disinfecting surfaces and equipment. Broad-spectrum action against bacteria, viruses, and fungi.

Sterilization Pouches

Self-sealing sterilization pouches with medical-grade paper and clear film. Steam and EO compatible with reliable protection.

Heat-Sealing Sterilization Reel

Sterilization reel for packaging instruments and sets. Medical-grade paper/film with strong seals. Steam, EO, and formaldehyde compatible.

Sterilization Wrap (SMS)

Non-woven SMS wraps for instrument sets and trays. High barrier, lint-free, and breathable for effective sterilization.

Autoclave Indicator Tape

Pressure-sensitive indicator tape that changes color when exposed to sterilization conditions. Suitable for steam, EO, or dry heat cycles.

SURGICAL INSTRUMENTS & ACCESSORIES

Surgical Blades (Carbon Steel)

High-precision carbon steel blades for general surgical cutting.

Disposable Scalpels

Single-use sterile scalpel with attached blade for precise incision.

Scalpel Handle

Reusable stainless steel handle compatible with surgical blades.

Surgical Hand Brush

Sterile pre-op hand brush with bristles and sponge for surgical scrubbing.

Disposable Skin Stapler

Single-use skin stapler for secure and efficient wound closure.

Staple Remover

Sterile remover for safe extraction of surgical staples.

Yankauer Suction Handle

Sterile rigid suction tip for aspirating fluids during procedures.

Suction Connecting Tube

Flexible PVC suction tubing connecting suction handle to vacuum source.

Umbilical Cord Clamp

Sterile disposable clamp for safe clamping of the umbilical cord.

MEDICAL UNIFORMS

Unisex Lab Coat

Classic white medical lab coat for doctors and laboratory staff.

Unisex Scrub Set (V-Neck)

Comfortable scrub top and matching pants for daily clinical wear.

Women's Mock Wrap Scrub Top

Fitted mock-wrap scrub top for professional clinical wear.

Reusable Surgical Gown

Reusable woven surgical gown with fluid-resistant treatment for repeated use and laundering.

Reusable Scrub Cap

Reusable surgical cap available in tie-back and bouffant styles for daily clinical wear.

Reusable Patient Gown

Reusable patient gown for hospital, clinic, and inpatient use.

Men's Multi-Pocket Scrub Top

Comfortable scrub top with multiple pockets for practical everyday use.

Cargo Scrub Pants

Elastic-waist scrub pants with cargo pockets for comfort and utility.

Scrub Warm-Up Jacket

Snap-front warm-up jacket worn over scrubs in cool clinical environments.

**BLOOD
COLLECTION
SUPPLIES**

Glucose Tube (Grey Cap)

Vacuum tube for glucose testing with fluoride/oxalate additive.

Heparin Tube (Green Cap)

Plasma collection tube containing heparin for clinical chemistry applications.

ESR Tube (Black Cap)

Vacuum tube designed for erythrocyte sedimentation rate testing.

Blood Collection Needle

Sterile double-ended needle for routine blood collection procedures.

Safety Blood Collection Needle

Retractable or shielded blood collection needle for improved user safety.

Needle Holder

Holder compatible with standard vacuum blood collection needles and tubes.

Serum Tube (Red Cap)

Plain serum tube for blood collection, chemistry, and serology testing.

EDTA Tube (Lavender Cap)

Whole blood collection tube containing EDTA for hematology testing.

Coagulation Tube (Blue Cap)

Sodium citrate tube for coagulation analysis and related laboratory testing.

LABORATORY SUPPLIES CONSUMABLES

Urine Container

Leak-proof specimen container for urine collection and transport.

Stool Container

Specimen container with spoon for hygienic stool sample collection.

Petri Dish

Sterile petri dish for microbiological culture and laboratory testing.

Centrifuge Tube

Conical centrifuge tube for sample preparation, storage, and centrifugation.

Pipette Tip

Disposable pipette tip for accurate liquid handling in laboratory work.

**Transfer Pipette
(Pasteur Pipette)**

Disposable transfer pipette for simple liquid transfer and approximate dispensing.

Test Tube

Glass or polypropylene test tube for routine laboratory use and sample handling.

Embedding Cassette

Tissue embedding cassette for safe processing and identification of histology specimens.

Microscope Slide

Pre-cleaned glass microscope slide for histology, cytology, and laboratory applications.

CRITICAL CARE & THERAPY EQUIPMENT

Syringe Pump

Precision syringe pump for controlled medication delivery in critical care and clinical settings.

Infusion Pump

Volumetric infusion pump for accurate fluid and medication administration.

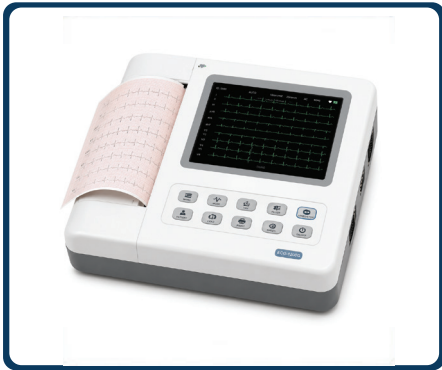

**Oxygen
Concentrator**

Medical oxygen concentrator providing continuous oxygen therapy for clinical or home care use.

Ventilator

Advanced ventilator for invasive and non-invasive respiratory support in ICU and emergency care.

ECG Machine

12-lead ECG machine for accurate cardiac rhythm recording and clinical diagnosis.

Defibrillator

Emergency defibrillator for controlled shocks and advanced cardiac life support.

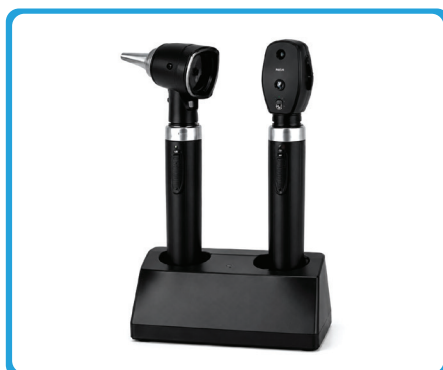

X-Ray Machine

Digital X-ray system for diagnostic imaging in hospitals and clinics.

Blood Pressure Monitor

Automatic monitor for accurate blood pressure measurement in clinical and home care use.

Diagnostic Set (Otoscope & Ophthalmoscope)

Handheld diagnostic set for ear and eye examination

Patient Monitor

Bedside monitor for real-time ECG, SpO₂, NIBP, and temperature monitoring.

Pulse Oximeter

Compact device for quick measurement of oxygen saturation and pulse rate.

Ultrasound Diagnostic System

Portable ultrasound system for real-time imaging in obstetric, cardiac, and general applications.

Laboratory Analyzers

Automated analyzers for clinical chemistry, hematology, and laboratory testing.

Medical Gas Cylinders

Medical oxygen and gas cylinders with regulators for hospital and emergency use.

Centrifuge

High-speed centrifuge for separation of blood, serum, and laboratory samples.

Microscope

Optical microscope for biological, clinical, and laboratory observation.

Autoclave Sterilizer

Steam sterilizer for instruments, laboratory tools, and medical materials.

Laboratory Incubator

Temperature-controlled incubator for microbiology and cell culture applications.

Medical Clinical Waste Bag

Leak-resistant bag for medical and clinical waste disposal.

Mini Sharps Container

Compact puncture-resistant sharps container for safe needle disposal.

Biohazard Bag (Heavy-Duty)

Heavy-duty biohazard bag for infectious waste handling.

Cytotoxic Waste Bag

Disposable bag for cytotoxic and chemotherapy waste.

Wall-Mounted Sharps Container System

Wall-mounted sharps container system for safe point-of-use disposal.

General Hospital Waste Bag

Durable bag for non-hazardous hospital waste collection.

Cytotoxic Sharps Container

Puncture-resistant sharps container for cytotoxic waste disposal.

Cadaver Body Bag

Heavy-duty body bag with secure zipper for mortuary use.

Pharmaceutical Waste Container

Rigid container for expired medications and pharmaceutical waste.

Standard Sharps Container

Puncture-resistant sharps container for routine medical use.

Autoclave Bag (Steam-Sterilizable)

Autoclave-safe waste bag for sterilization before disposal.

Large Sharps Container

High-capacity sharps container for large-volume disposal.

HOSPITAL WALL FURNITURE

Hospital Beds

Manual and electric hospital beds for wards, ICU, and patient care use.

Hospital Chairs

Patient and attendant chairs for hospital rooms, waiting areas, and clinical use.

Hospital Lights

Clinical lighting solutions for examination rooms and bedside care.

Hospital Tables

Overbed, examination, and utility tables for hospital and clinical use.

Stools

Adjustable medical stools for doctors, nurses, and laboratory work.

Stretchers

Patient transport stretchers for emergency rooms, wards, and ambulance use.

Trolleys

Mobile trolleys for instruments, dressings, medication, and emergency care.

Wheelchairs

Manual transport wheelchairs for patient mobility and transfer.

IV Stands (Drip Stands)

Height-adjustable IV stands for hanging infusion and fluid bags.

HOSPITAL WALL PROTECTION & ACCESSIBILITY

Stainless Steel Handrail

Durable stainless steel handrail for corridor support and patient safety.

Push / Kick Plate

Protective stainless steel plate for doors in hospitals and clinical areas.

PVC/Vinyl Handrail

Impact-resistant wall handrail for corridor protection and accessibility.

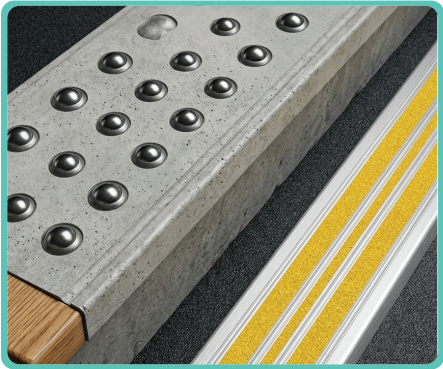

**Folding Shower
Seat**

Wall-mounted folding shower seat for accessible bathrooms and patient care areas.

**Door Frame
Protector**

Protective solution for door frames in high-traffic hospital corridors.

**Tactile Floor
Indicator**

Tactile floor indicator for accessibility guidance and slip awareness.

Bumper Guard

Impact-resistant bumper guard for lower wall protection.

**Grab Bar
(Bathroom / Toilet Safety Rail)**

Stainless steel grab bar for bathroom safety and patient support.

Corner Guard

Durable corner guard for protecting wall edges from impact.

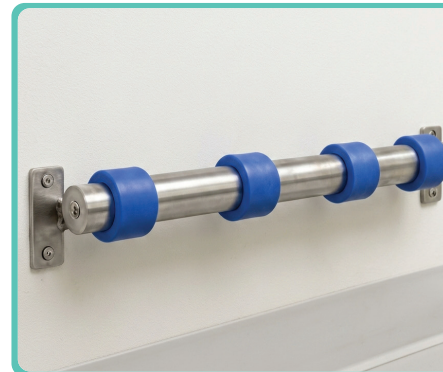

**Wall Sheet
Wall Cladding**

Hygienic wall cladding for clean and durable interior protection.

Crash Rail

Protective crash rail for corridors and patient transport routes.

Stretcher Bumper

Heavy-duty stretcher bumper for high-impact hospital areas.

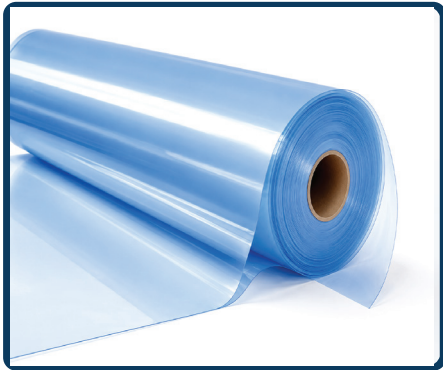

**Meltblown
Nonwoven (Filter Media)**

Fine filtration nonwoven material used in masks and medical protection.

**Microporous
Film Laminate**

Breathable microporous laminated material for protective medical applications.

CPE / PE Cast Film

Waterproof cast film material for gowns, drapes, and protective products.

Spunlace Nonwoven

Soft absorbent nonwoven fabric for wipes and medical disposables.

**PP Spunbond
Nonwoven**

Lightweight polypropylene spunbond fabric for disposable medical products.

SMS Nonwoven

Multi-layer SMS nonwoven fabric with barrier protection and breathability.

RAW MATERIALS & COMPONENTS

**Fluff Pulp
(Wood Pulp)**

Bleached fluff pulp for absorbent cores in diapers, underpads, and hygiene products.

**Super Absorbent
Polymer (SAP)**

High-absorbency polymer granules for diapers, underpads, and hygiene products.

PE Backing Film

Waterproof polyethylene film for diaper, underpad, and disposable sheet backing.

Mask Nose Wire

Plastic-coated nose wire for secure fit and shape retention in face masks.

Mask Earloop Band

Soft elastic band for disposable and medical face mask ear loops.

Elastic Band

Elastic band for caps, shoe covers, protective apparel, and disposable products.

Hot-Melt Adhesive

Industrial hot-melt adhesive for bonding nonwoven layers and absorbent cores.

**%70 Isopropyl
Alcohol**

%70 isopropyl alcohol for prep pads, wipes, and disinfection product manufacturing.

**Foil Laminate
Packaging**

Multi-layer foil laminate for medical sachets and individual product packaging.

**Meltblown
Nonwoven (Filter Media)**

Fine filtration nonwoven material used in masks and respiratory protection.

Spunlace Nonwoven

Soft absorbent nonwoven fabric for wipes and medical disposables.

**PP Spunbond
Nonwoven**

Lightweight polypropylene spunbond fabric for disposable medical products.

SMS Nonwoven

Multi-layer SMS nonwoven fabric with barrier protection and breathability.

**Microporous
Film Laminate**

Breathable laminated material for protective medical applications.

CPE / PE Cast Film

Waterproof cast film material for gowns, drapes, aprons, and protective products.
